[EPA-HQ-SFUND-2003-0010; FRL-9996-45-Region 7]

**National Oil and Hazardous Substances Pollution Contingency
Plan; National Priorities List: Partial Deletion of the Omaha
Lead Superfund Site**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 7 announces the deletion of 500 residential parcels of the Omaha Lead Superfund site (Site or OLS) located in Omaha, Nebraska, from the National Priorities List (NPL). This partial deletion pertains to 500 residential parcels. The remaining parcels will remain on the NPL and are not being considered for deletion as part of this action. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Nebraska, through the Nebraska Department of Environmental Quality, determined that all appropriate Response Actions under CERCLA were completed at the identified parcels. However, this deletion does not preclude future actions under CERCLA.

DATES: This action is effective **[insert date of publication in the Federal Register]**.

SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL are 500 residential parcels of the Omaha Lead Superfund site, Omaha, Nebraska. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** (84 FR 24069) on May 24, 2019.

The closing date for comments on the Notice of Intent for Partial Deletion was June 24, 2019. No public comments were received, and EPA has determined it will proceed with the partial deletion.

The EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.
